Ford International Airport to Move Location of Temporary Walkways

Grand Rapids, Mich., July 9, 2008 – Gerald R. Ford International Airport (GFIA) officials announced that, **beginning the evening of July 10, the two enclosed temporary passenger walkways will move from the far east end (the furthest end as you approach the temporary drop-off area) to just west of the center of the drop off area.** While minimal impact to airport users is expected, travelers are encouraged to allow for additional time to wayfind.
