

Q 1. Can you please provide the ceiling heights?

A 1. Yes, see attached.

Q 2. The map provided shows the designated maze only. Is this the only area where there can be a queue or would you also want to include an option for measuring extended lines? If so please provide a map which covers the areas of the extended queues along with the ceiling heights in these areas.

A 2. Yes, see attached.

Q 3. Will GFIAA be responsible for cabling and network. Please clarify this responsibility.

A 3. The selected vendor is responsible for installation including cabling. Vendor will be expected to coordinate with Airport IT staff for network configuration.

Q 4. If necessary would we be able to do an onsite walk thru video of areas to be measure?

A 4. Yes, please coordinate with Purchasing by emailing [purchasing@grr.org](mailto:purchasing@grr.org).

Q 5. What are the ceiling heights of the proposed coverage areas?

A 5. See attached

Q 6. Can the airport provide .DWG files of the proposed queuing areas for planning purposes?

A 6. No

Q 7. Does the airport intend to schedule a site survey and if not, can a site visit be conducted independently by vendor?

A 7. Please coordinate with Purchasing by emailing [purchasing@grr.org](mailto:purchasing@grr.org).

Q 8. Can you highlight the exact area the airport would like covered by sensors in the provided queue layout in the RFP?

A 8. Please see attached

Q 9. Deadline for questions is March 26<sup>th</sup>, will questions be answered prior to this date?

A 9. We will do our best to answer questions as soon as possible.

Exhibit A
