WORK SCOPE

The project scope for an independent Commissioning Agent (CxA) is comprehensive and multifaceted, aimed at ensuring any given construction project meets the owner's operational and performance requirements. Below is a breakdown of the typical scope for a project:

1. Early Project Phase:

- Establish Owner's Project Requirements (OPR): Collaborate with the owner (and Owner's Consultants if required) to define and document project goals, functional needs, performance expectations, and any specific requirements for commissioned systems.
- Develop a Commissioning Plan: Create a roadmap outlining the commissioning process, activities, schedules, and responsibilities of the commissioning team and other stakeholders. Attend commissioning kick-off meetings with the Owner and applicable stakeholders. Owner will review and approve the plan once finalized.

- c. **Review Basis of Design (BoD):** Review the design documents to ensure alignment with the OPR and to identify potential issues or inefficiencies that could impact building performance. The CxA conducts a thorough review of the project's design documents to identify potential issues, discrepancies, or inefficiencies that could impact the building's performance. Commissioning review is necessary to verify that systems are coordinated and works across different disciplines.
- d. **Develop Commissioning Specifications:** The CxA will work with the Owner's consultants to include detailed commissioning requirements and procedures in the construction documents to ensure contractors understand and adhere to them.
- e. **Coordinate with Design Team:** Participate in design meetings to facilitate communication and address potential issues early in the design process.
- f. **Participation and coordination with Owner's Operational Readiness Activation and Transition (ORAT) Plan** for each project.

2. Construction Phase:

- a. During construction, the CxA reviews contractor submittals (specific to the commissioned systems), performs site inspections to verify system installation, develops and reviews pre-functional checklists, and conducts functional performance testing to ensure systems operate as intended. The CxA will work with consultants and/or contractors to resolve issues and coordinate activities among project stakeholders and prevent the installation of non-compliant or deficient components. Owner considers these tasks are crucial to ensure the quality and performance of the constructed systems.

3. Post-Construction Phase:

- a. Post construction, the CxA to provide a final commissioning report, assist with building operators training and documentation, and conducts follow-up inspections and seasonal testing to confirm systems are performing optimally and warranties are being honored. Work during this phase shall be completed within 12 months of substantial completion.

Key Aspects of an Independent Commissioning Agent's Role:

An independent CxA provides unbiased assessments, focuses on Quality Assurance (QA) and system optimization, facilitates communication among stakeholders, and assists in mitigating risks throughout the project. This comprehensive approach helps ensure a successful project that meets the owner's needs and operates efficiently.

AIRPORT SECURITY

It is essential that during the performance of this contract that airport security be maintained and that operations under this agreement conform to Airport security requirements.

Airport-Issued Identification Badges -

Identification badges are issued by the Airport Police Department to provide unescorted access to authorized employees performing job duties within the airport. Contractors assigned to this account must be badged to provide services within the Secure Area. GRFIAA will not provide escort. The Contractor assumes responsibility for the conduct of all personnel working on airport property. All personnel within the Secured Area must display an airport-issued identification badge or be escorted by personnel with a badge who has been granted escort privileges. Identification badges must be worn on an individual's outermost garment and above the waist at all times.

The Airport encourages all Contractor personnel to be badged. **An unbadged person is to be under escort at all times.** This will be strictly enforced.

Badges are the property of the Airport and must be returned promptly upon fulfillment of this agreement, an individual's termination or at the request of the GRFIAA. Failure to return badges may result in the Contractor being declared nonresponsive and ineligible for future Airport contracts.

Pre-Badging Requirements for General Contractor -

Contractor should coordinate badge requirements with the Airport Project Manager. DO NOT WAIT UNTIL THE LAST MINUTE. The following documents are required before the Contractor begin the badging process for themselves, their subcontractors or their employees:

1. Project Letter from Contractor – Letter must include the Project Name with Start Date and estimated End Date, PLUS a list of all Subcontractors (if any).
2. Authorized Signer Letter(s) – Contractors/subcontractors will designate one or more individuals to be Authorized Signers for badge enrollments. The Authorized Signer letter must be on company letterhead. An Authorized Signer must obtain an airport badge prior to attending signatory training which is administered by the Airport Security Coordinator. The badging process is outlined below.

Badging Process –

The badging process requires two visits to the Airport Police office for each applicant.

1. Badge Application and Background Checks

The process is initiated with the Authorized Signatory. They will be enrolling the applicant in the airport's SAFE Signatory Portal. Once enrolled and submitted, each applicant must make an initial appointment with the airport badging office. (www.grrbadging.as.me)

As outlined in the appointment information, each individual is required to provide 2 pieces of acceptable ID, as well as provide a completed GRR Fingerprint Application. Information about acceptable IDs and the GRR Fingerprint Application can be found on the badging services page: <http://www.grr.org/badging-services.php>

- b. A criminal history records check (CHRC) is a fingerprint-based background check to determine if personnel have been convicted of a felony within the last ten (10) years. Background check results can take anywhere from two days to two weeks to be completed.

The Contractor's Authorized Signatory will be notified once the background checks have been completed and approved. The Authorized Signatory will notify the individual and have them schedule their assigned appointment for Badge Training and Issuance.

2. Training and Badge Issuance

The applicant will make an appointment at www.grrbadging.as.me for their assigned training and badge issuance. Training may include the following depending on which privileges the Authorized Signatory assigned during enrollment:

- a. SIDA training
- b. Non-movement driver's training

Each training takes approximately 45 minutes to complete. Once completed and passed, the individual will receive their ID.

Training/Badging must be completed within 30 days from date of approval. Applicants who fail to complete badging within the allotted time will be assessed a resubmission fee.

3. Authorized Signatory Training (IF APPLICABLE)

If an individual will be designated as an Authorized Signatory for their company, they will need to schedule an appointment for Authorized Signatory Training with the Airport Security Coordinator. This is typically handled through communication with the original Authorized Signatory and can only be completed after they have received their badge.

All initial badging fees will be at no cost to the Contractor. If an ID badge is lost, stolen, or otherwise unaccounted for immediate notify Airport Communications at 616.233.6055. The ID badge replacement fee is \$50.00. The badge holder is responsible for the ID badge replacement fee.
